

## Hill City Master Gardener Association Box 2275, Lynchburg, Virginia 24505-2275

For Immediate Release  
February 16, 2025

### GARDEN PLOTS AVAILABLE FROM MASTER GARDENERS

Have you wanted a garden but don't have room in your yard or apartment? Hill City Master Gardener Association (HCMGA) and Humankind are pleased to invite members of the community to lease a garden plot in the Davis Instructional Garden (D.I.G.) on the Humankind campus at 150 HumanKind Way. The physical address is the first right turn on Humankind Way after access from VES Road. There are a limited number of 15' x 24' garden plots in the fenced site that will be supplied with water and tilled by HCMGA this spring.

This is a wonderful individual or family opportunity for healthy outdoor exercise, hands-on experience with nature, increased gardening knowledge, and a great source of fresh, healthy produce. To help make participation an educational experience, the HCMGA offers information on gardening, harvesting, preparing, and storing your crops. An agreement between the lessee and HCMGA will outline the expectations for each party. Available on a first-come, first-served basis, don't wait if interested. The planting season will begin soon.

As participants in the D.I.G. garden, there will be opportunities to attend FREE classes and workshops when held at the garden site. Master Gardeners may also be available at the site to answer questions and provide timely information on specific vegetables and diseases. You may also call the Master Gardener help desk with specific questions. In addition, there will be a community garden mentor to address issues.

Lots are rented for \$40 each based on the time stamp of the mailed completed application. There is a one-plot maximum rental per family. For additional information and application forms, please contact Frank Tiller at [frank.davtill@gmail.com](mailto:frank.davtill@gmail.com).
